GPT-2 Large (Pearson r = 0.13)

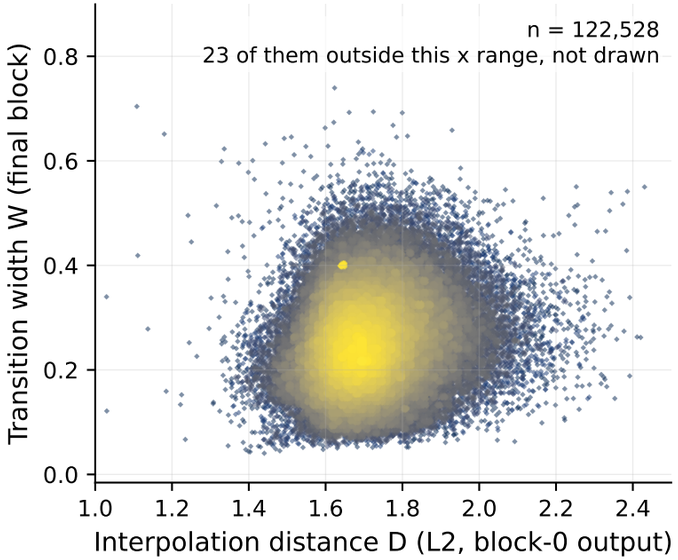

GPT-2 XL (Pearson r = 0.05)

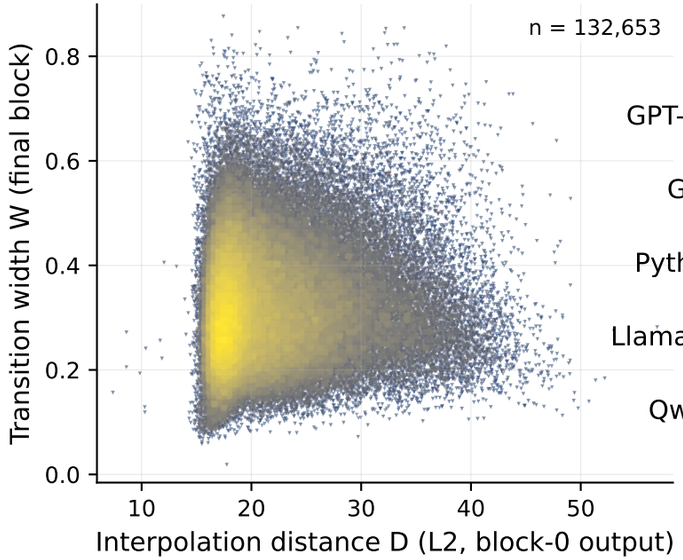

Pythia 1.4B (Pearson r = -0.14)

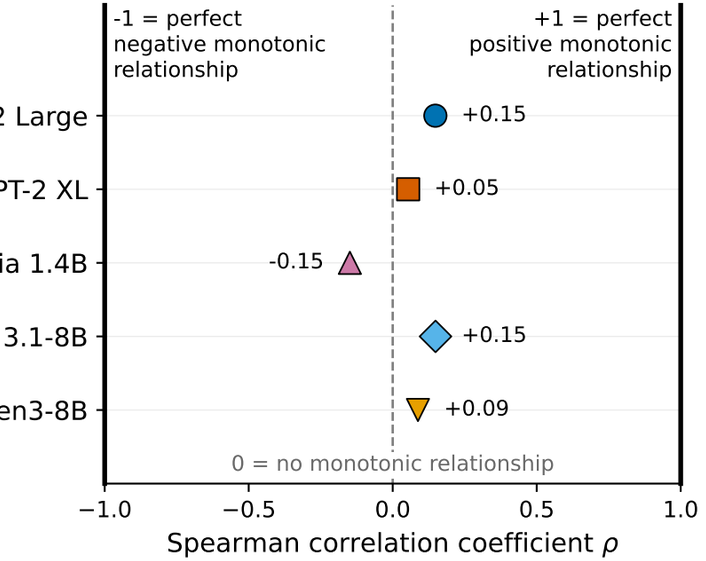

Llama 3.1-8B (Pearson r = 0.15)

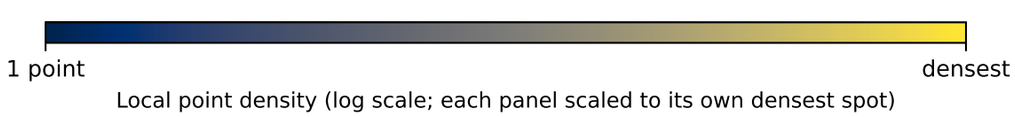

Qwen3-8B (Pearson r = 0.06)

Spearman rank correlation, D vs W (final block)

Monotonic curve: the final-block readout curve crosses the 10% and the 90% level once each and never drops by more than 0.05 between neighbouring interpolation positions. r, rho and n count every monotonic curve, including the ones outside a cropped x range.
